

## HANDOUT, LESSON #3

Dear Students,

We need your help, **SUPERFLEX** students! The **Team Of Unthinkables** are at it again. They have managed to get hold of some of our materials at our school in an attempt to stop us from training more superheroes!! They got hold of some of our secret pictures from this lesson, probably to try and prevent us from teaching these skills to our Superflex students. Since you have just learned about *Superflexible* behaviors, we are asking that our students provide some more picture examples of *Superflexible* moments and **Rock Brain** moments that they have experienced or witnessed. You can write or draw the information. We can then add your scenes when we train our new students next year.

Thank you for your help,

Mr. Flecks  
Principal of Superflex Academy
