

Buzzing with Solutions

Objective: Students will state probable outcomes when presented with situations.

Materials: • None

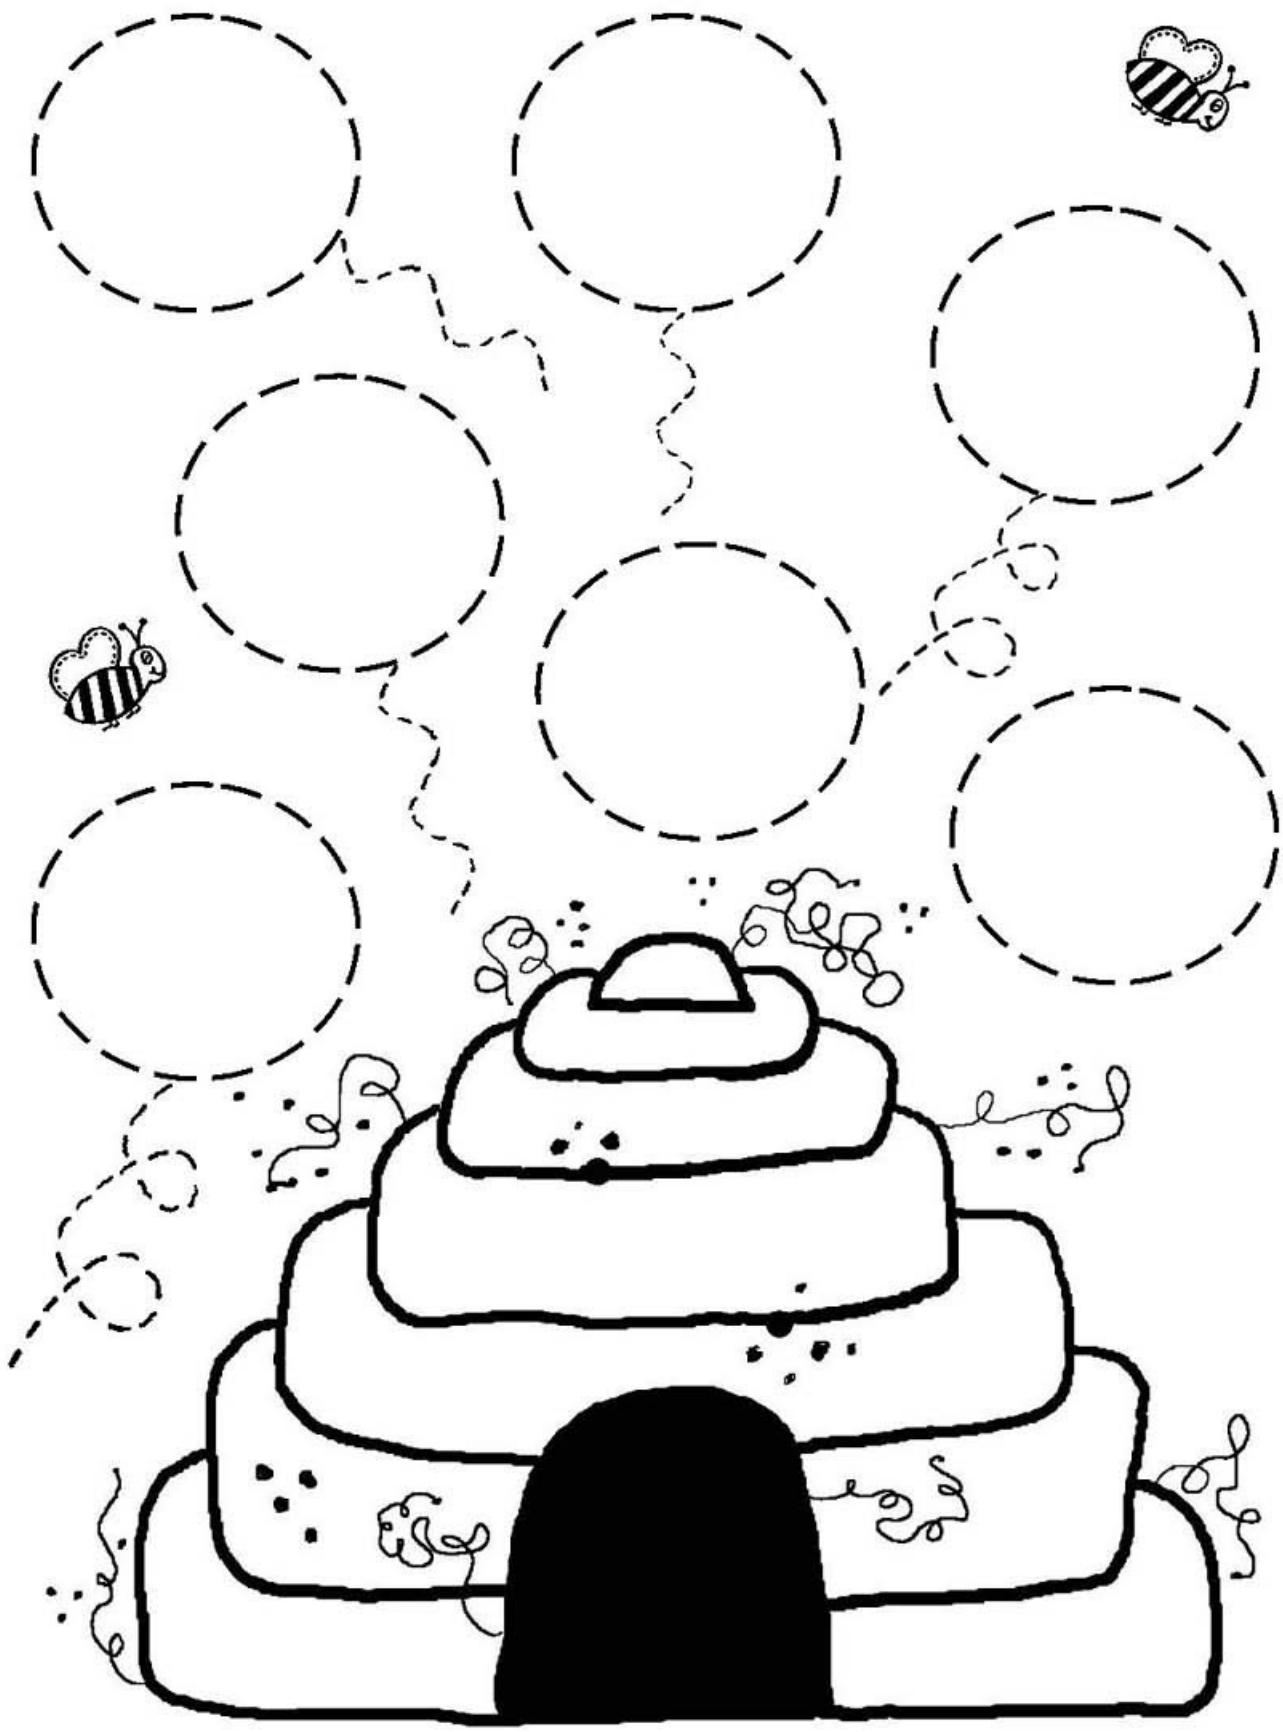

To Make:

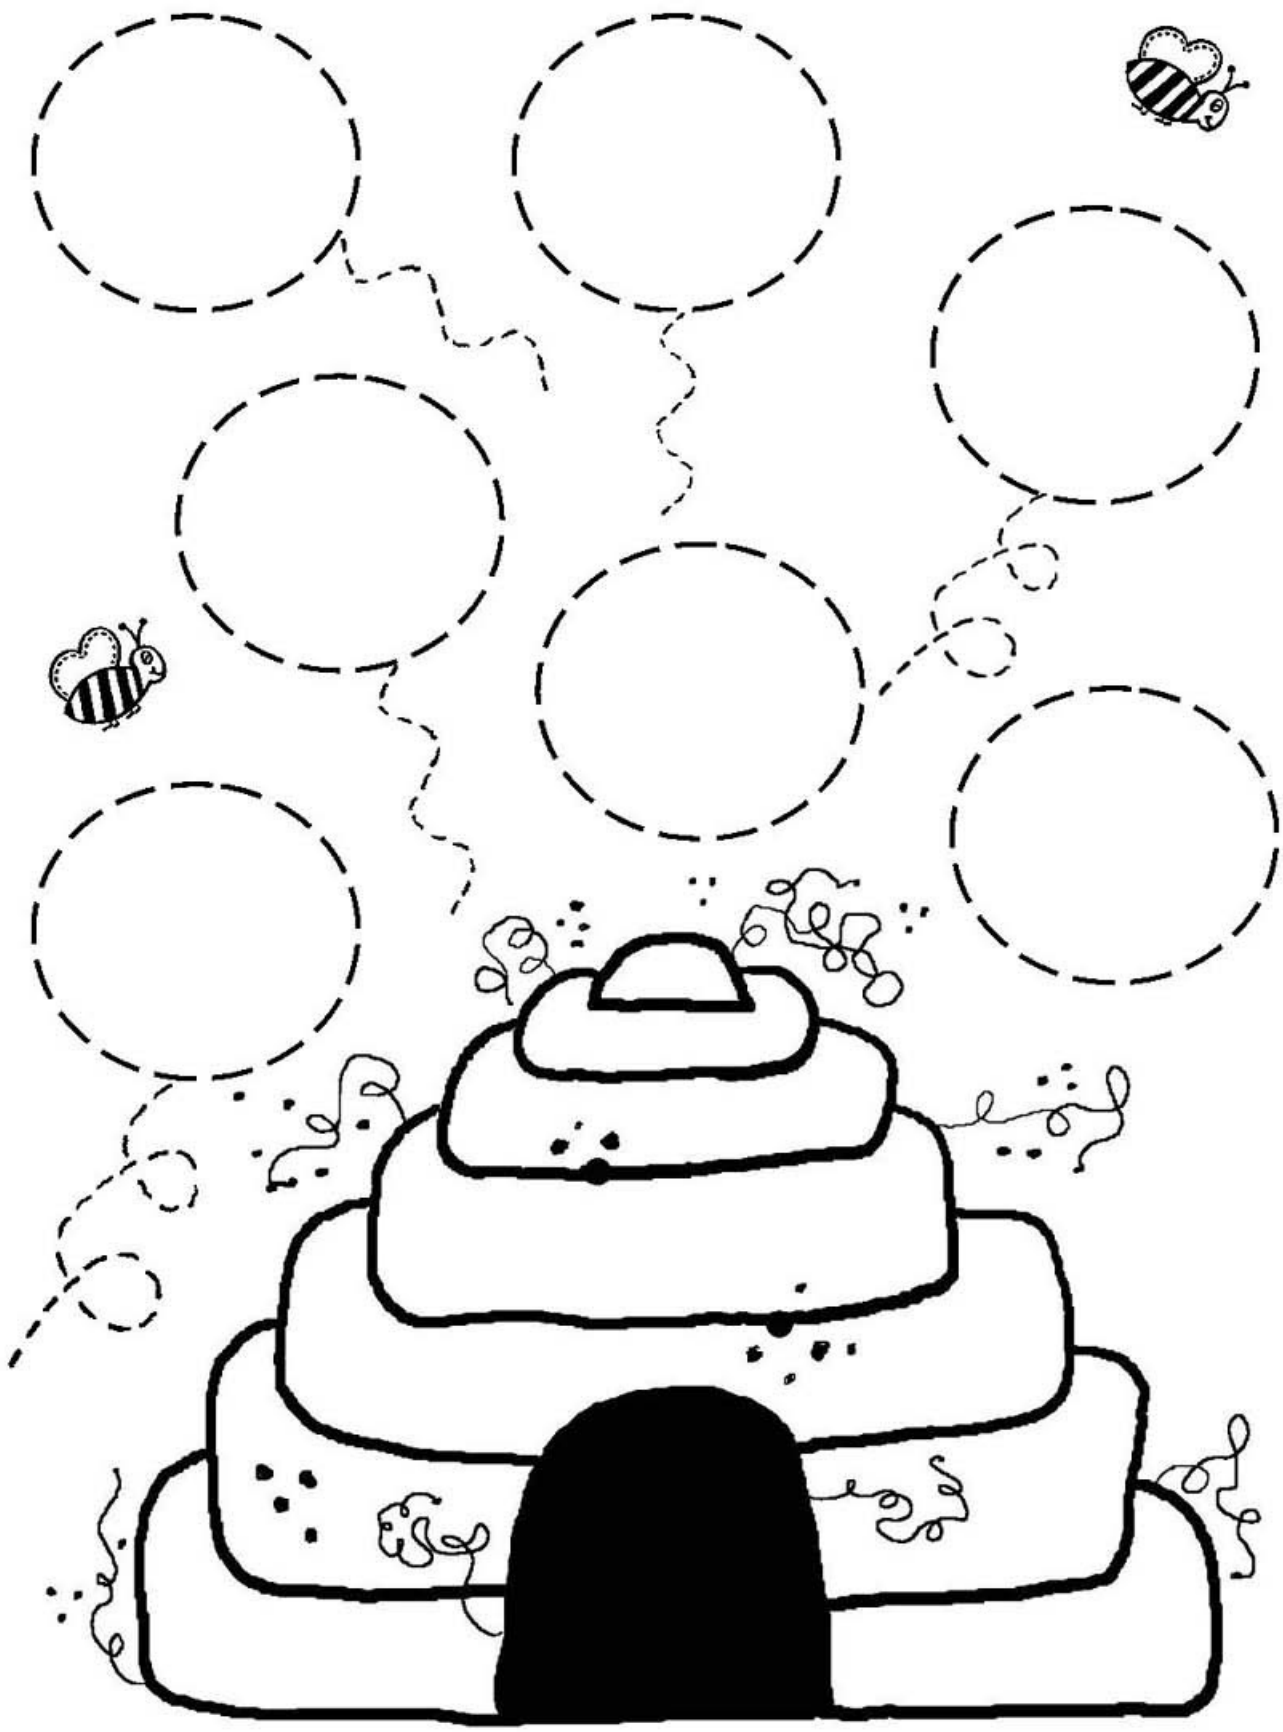

(Everything can be printed on card stock paper and laminated to add to durability or printed on regular paper for quick use.)

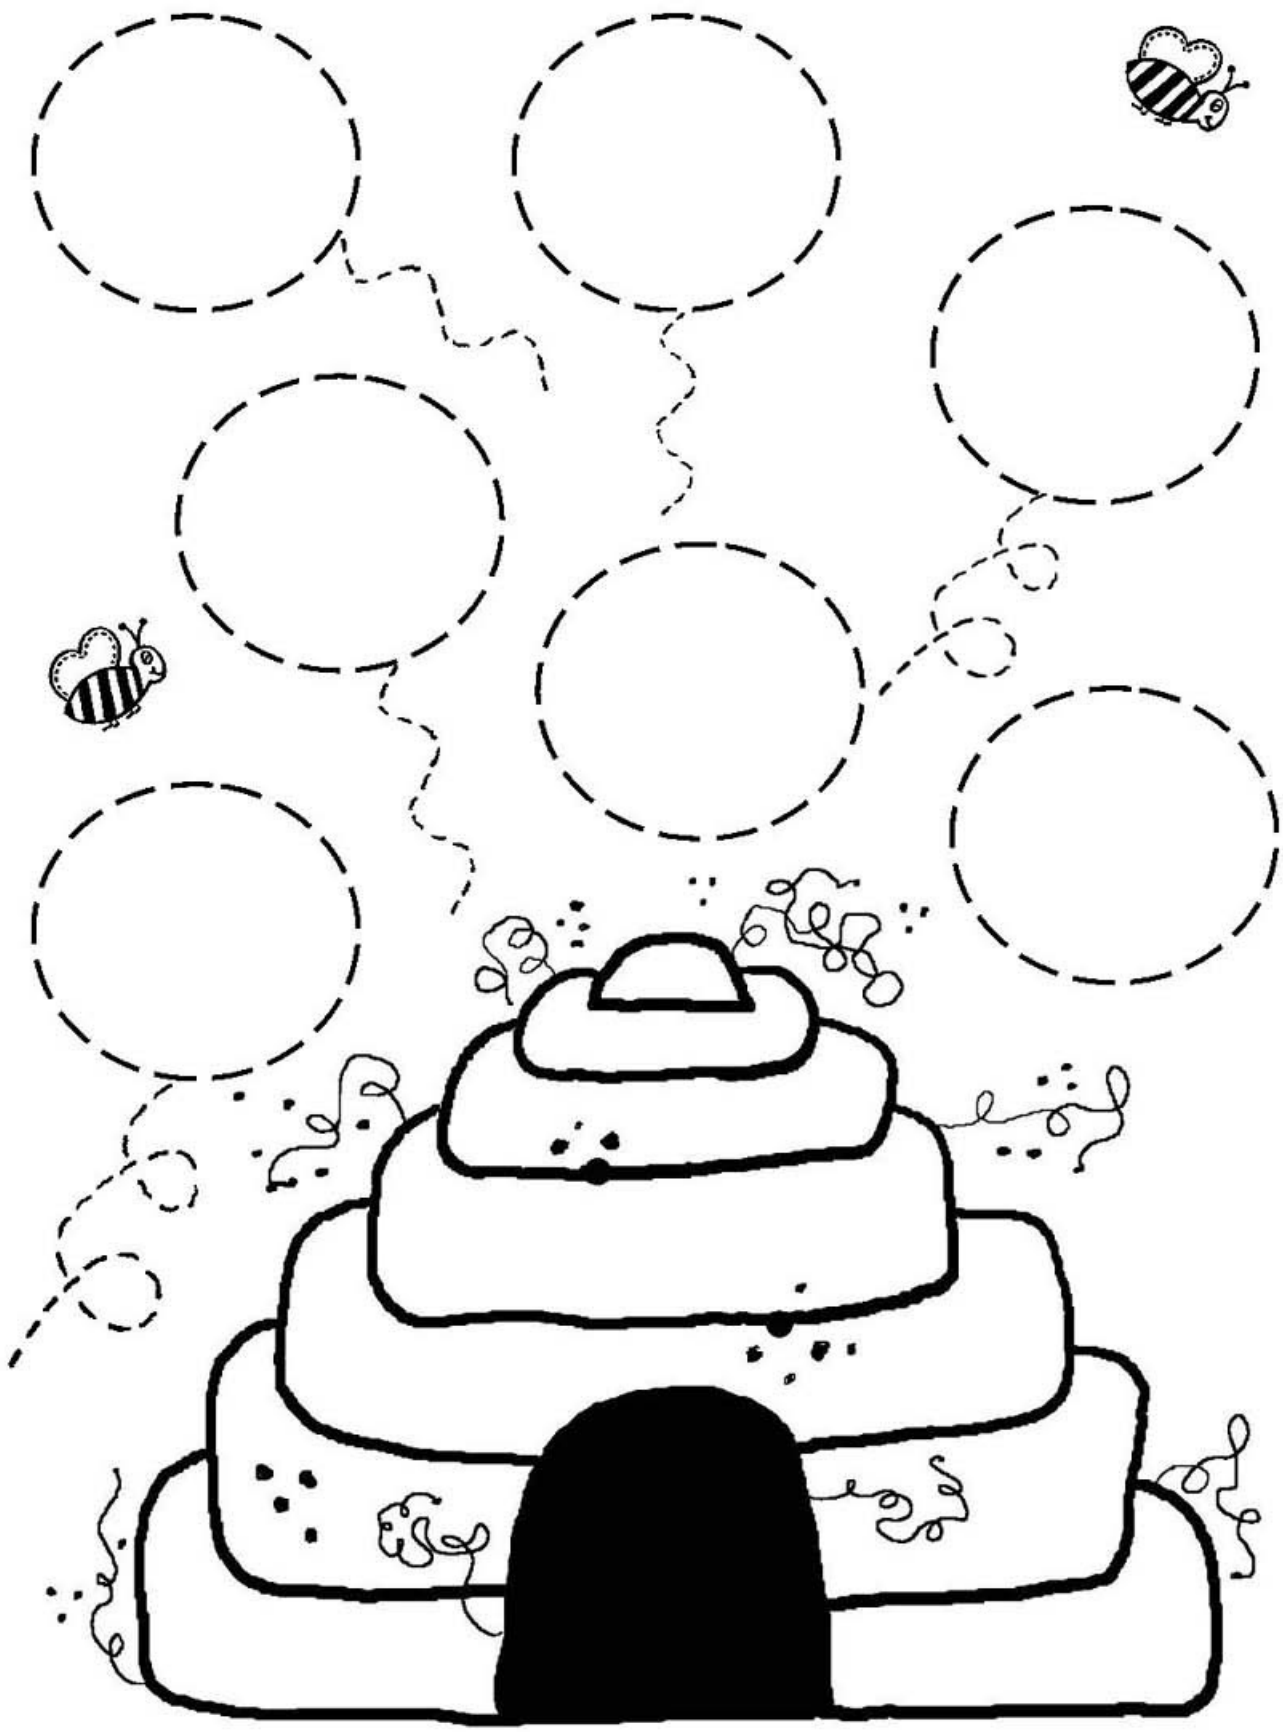

1. Print entire "Buzzing with Solutions" activity.
2. Cut out bees and keep to hand out for correct responses.
3. Keep "Situations" pages to read to the students.
4. If you have more than five students playing at the same time, you may group them into teams or print more bees and beehive pages to accommodate all students. Printing more just means that some of the situations will be answered more than once.

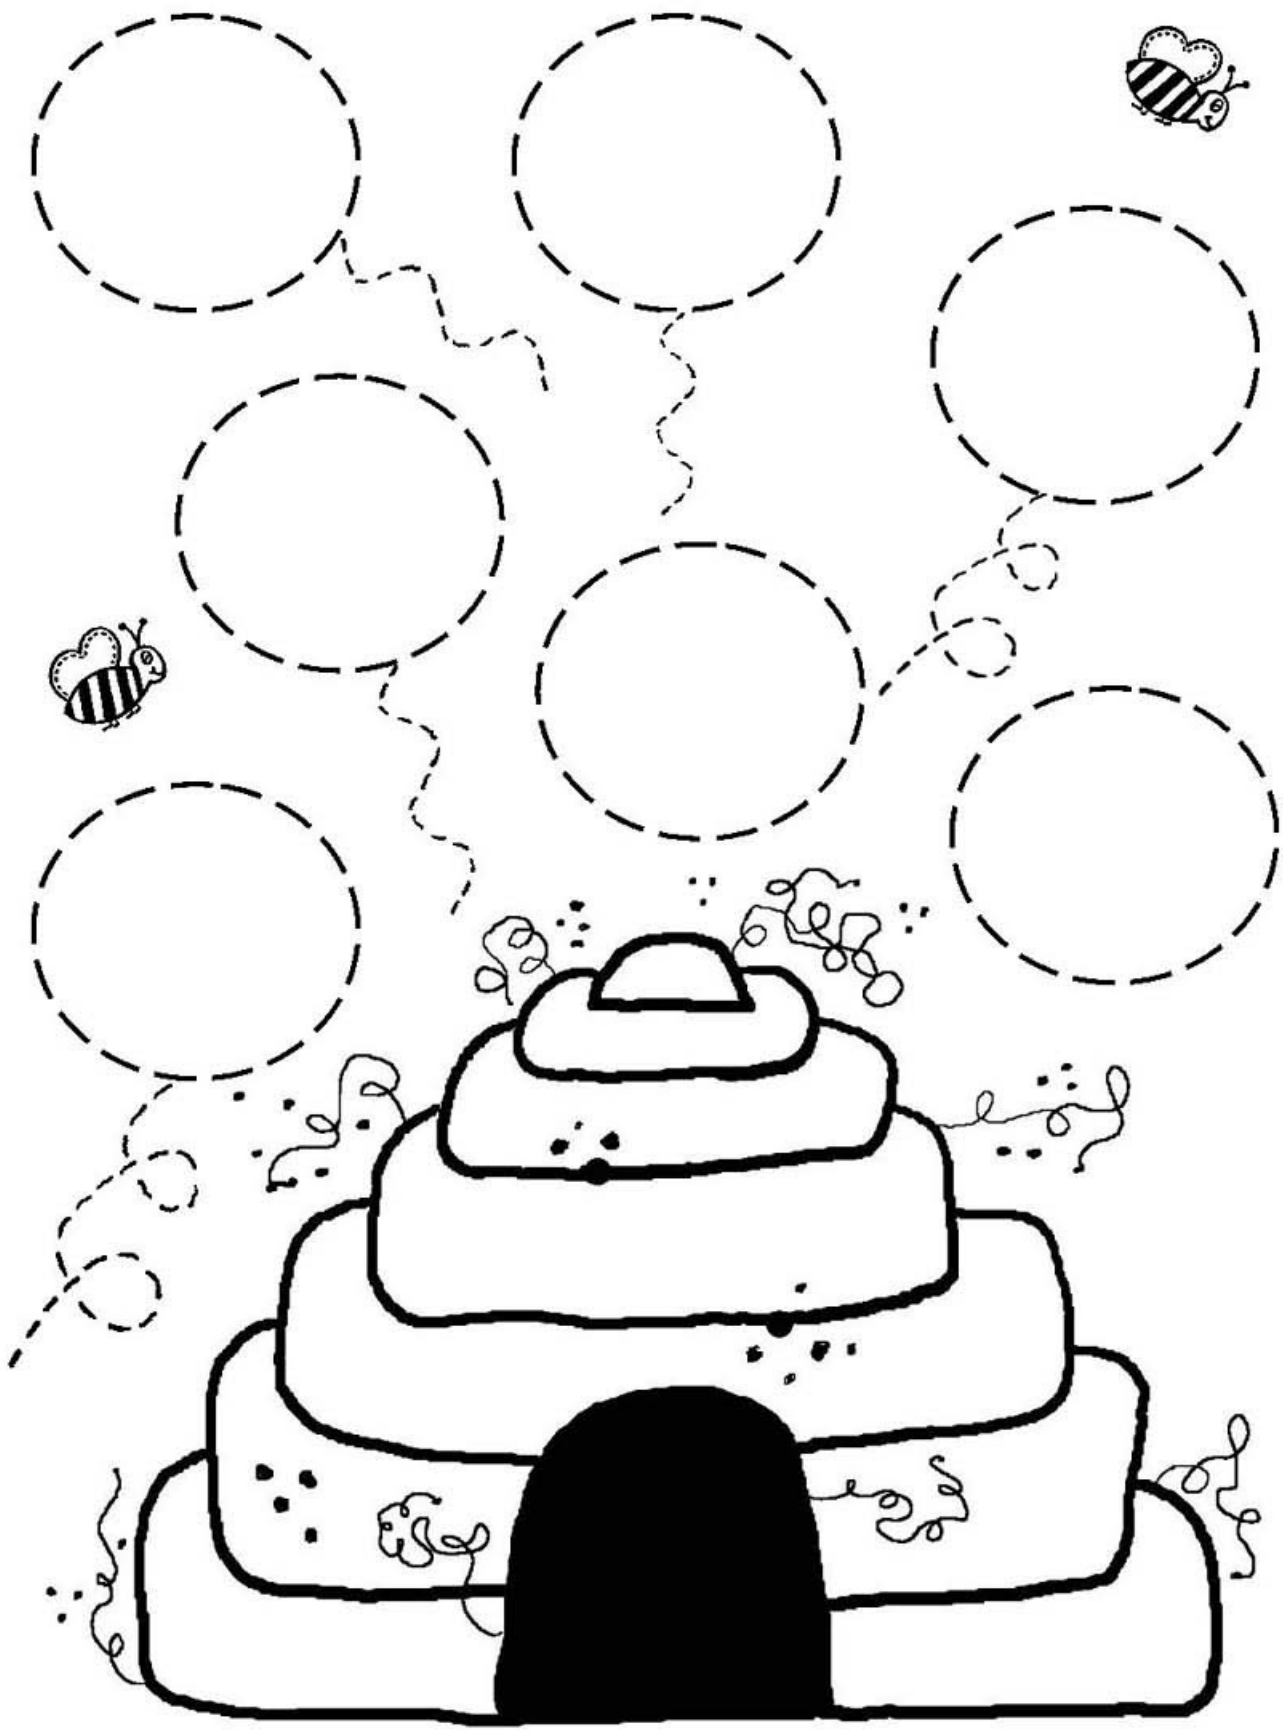

To Play:

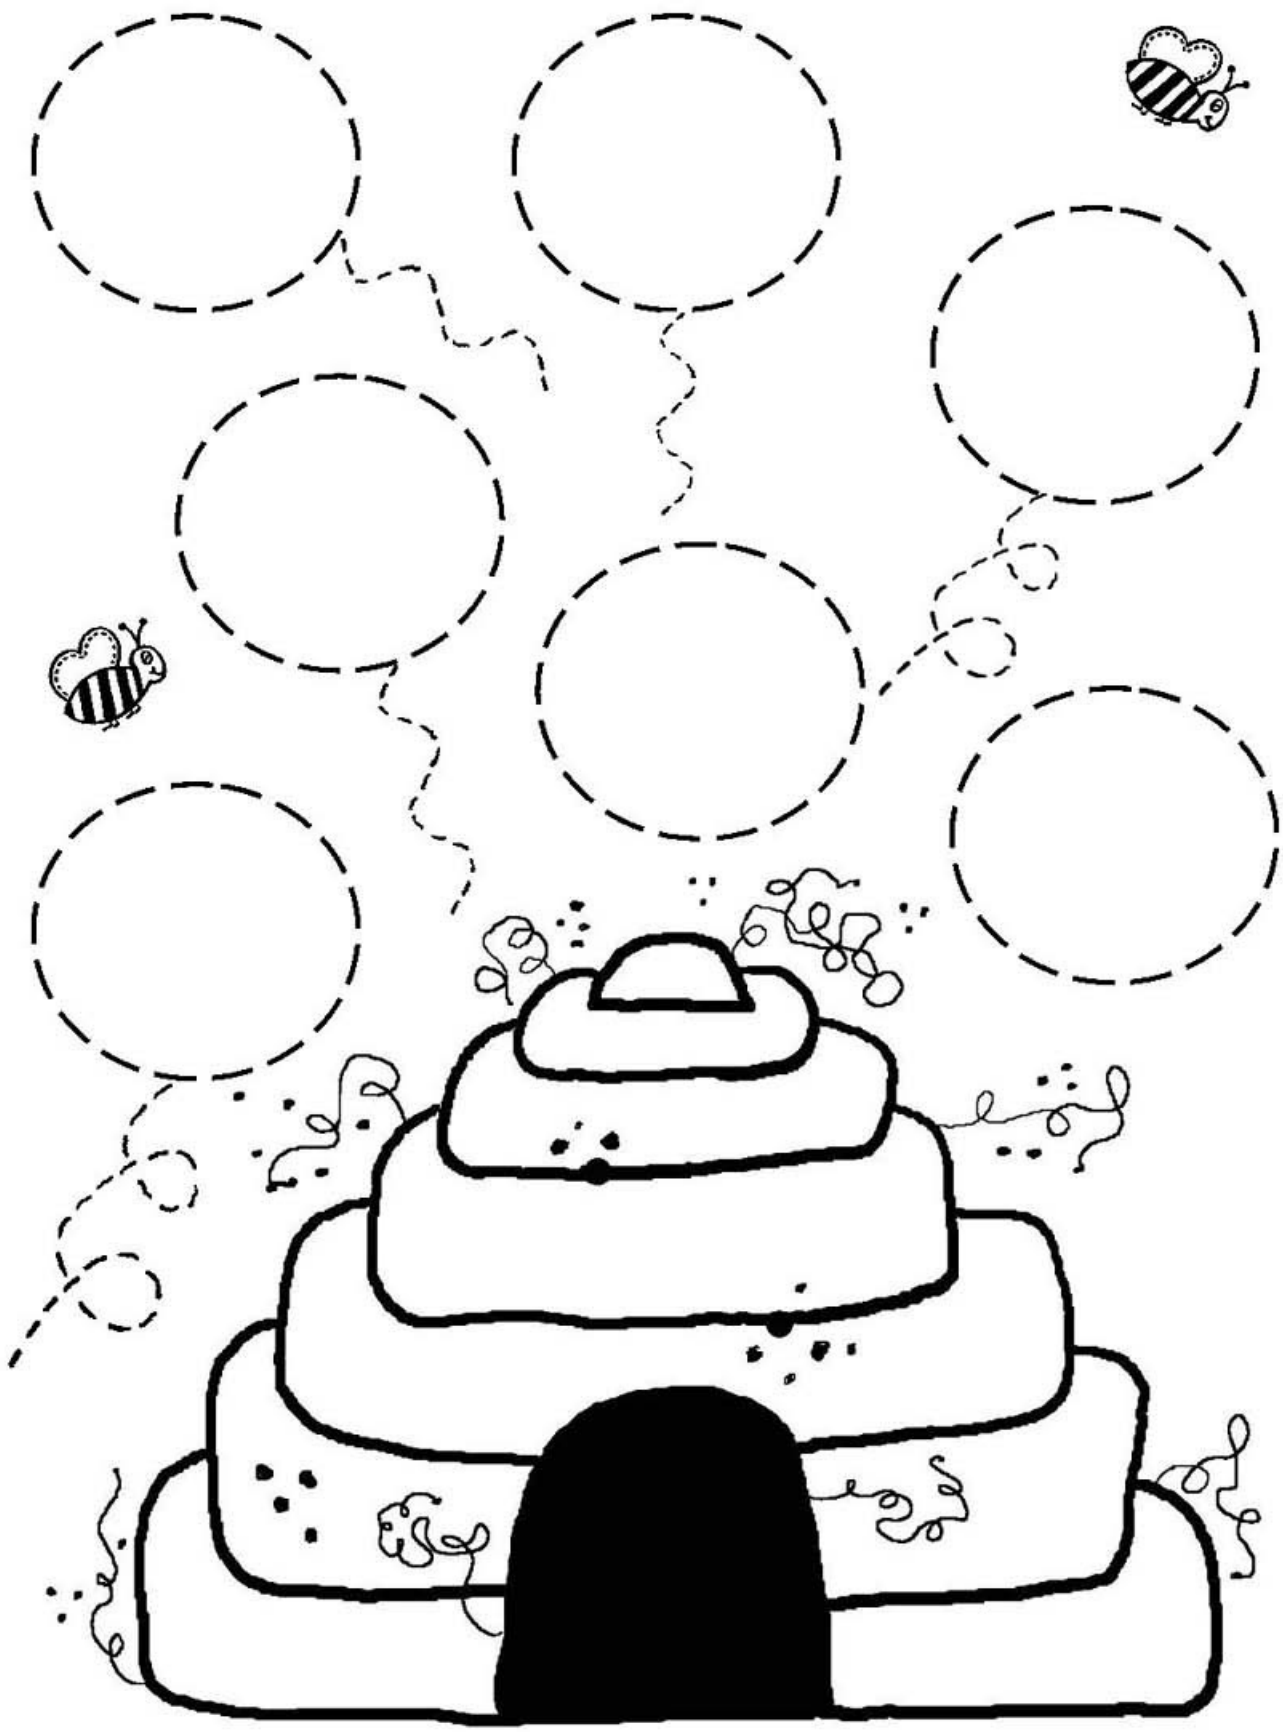

1. Give each student their own hive.
2. Begin by reading situation #1 on the "Situations" page to a particular student. Have the student answer the question. If the student's answer is acceptable, he/she earns a bee. The bee should be placed in the appropriate location on the hive page. If the student's answer is unacceptable, the student does not get a bee and play continues with the next student.
3. The game is over when all the students fill their hive page with bees.

Situations

1. What would probably happen if you decided to play with your friends instead of studying for your spelling test?
2. What would probably happen if you got to school and then realized that you forgot your lunch at home?
3. What would probably happen if you got up late for school?
4. What would probably happen if you decided to play with your friends after school instead of doing your chores?
5. What would probably happen if you held the door open for someone?
6. What would probably happen if you let a friend cheat off your paper during a test?
7. What would probably happen if you forgot to bring your instrument to band class?
8. What would probably happen if you ran out of eggs while making a cake with your mom?
9. What would probably happen if you helped your mom carry in groceries from the car?
10. What would probably happen if you didn't brush your teeth everyday?
11. What would probably happen if you didn't wear gloves and a coat on a cold day?
12. What would probably happen if you shared your candy bar with a friend that didn't have one?
13. What would probably happen if you didn't eat breakfast before going to school?
14. What would probably happen if you cleaned up your bedroom without being asked?
15. What would probably happen if you ate a lot of candy before dinner?
16. What would probably happen if you rode your bicycle without wearing a helmet and had an accident?
17. What would probably happen if you lost your lunch money?

18. What would probably happen if you ran in the halls at school?
19. What would probably happen if you wrote a thank you letter to a friend after she gave you a gift?
20. What would probably happen if you let your friend copy your homework?
21. What would probably happen if you didn't eat any dinner before bed?
22. What would probably happen if you didn't wash your hair when you took a bath?
23. What would probably happen if you helped clean up after dinner by washing the dishes?
24. What would probably happen if you got bit by a dog?
25. What would probably happen if you cleaned up your bedroom without being asked?
26. What would probably happen if you let a friend borrow a pencil?
27. What would probably happen if you were playing basketball and your shoelace came untied?
28. What would probably happen if you got stung by a bumblebee?
29. What would probably happen if you did your homework right when you got home instead of waiting until the last minute?
30. What would probably happen if you forgot to feed your goldfish?
31. What would probably happen if you didn't wear socks with your tennis shoes?
32. What would probably happen if you just ate candy all day long?
33. What would probably happen if you were talking during class and didn't hear the teacher's directions?
34. What would probably happen if you gave your mom a flower for Mother's Day?
35. What would probably happen if you left your bike out on the front lawn over night?
36. What would probably happen if you took a toy away from your younger brother?
37. What would probably happen if you cheated on a test?
38. What would probably happen if you got sick at school?
